INTRODUCTION

Why we did this: To analyze GlobalShala's Facebook ad campaigns, identify high and low-performing segments, and optimize ad spend for maximum ROI.

Overview of Activities Completed (Weeks 1–3):

Week 1: Analyzed campaign performance; identified top/weak regions; recommended discontinuing costly markets (Australia & UK).

Week 2: Enhanced visuals; deeper insights; set CPR & CPC benchmarks; suggested reallocation & optimization.

Week 3: Presented findings in a concise, stakeholder-friendly PPT.

Our Main Goal :

- Optimize ad campaign spending by reallocating budgets.
- Build clear visualizations to support stakeholder decision-making.
- Suggest strategies to maximize ROI using data-driven insights.
- Discontinue or refine underperforming campaigns.

SUPERHERO U

About Superhero U:

1.

A fun, interactive event inspired by superheroes.

2.

Participants embody their favorite heroes through tasks & activities.

3.

Focuses on creativity, leadership, and teamwork.

Event Highlights

1.

Hero Role-Play → Step into the shoes of your favorite superhero.

2.

Themed Challenges → Fun tasks testing creativity & problem-solving.

3.

Creative Showcase → Costumes, stories, and superhero powers.

4.

Team Bonding → Work together to “save the day.”

FACEBOOK ADS FRAMEWORK

KEY METRICS OVERVIEW

- **CPR (Cost Per Result)** indicates campaign efficiency
- **CPC (Cost Per Click)** reflects engagement expense
- **CTR (Click-Through Rate)** gauges ad effectiveness
- **ULC (Unique Link Clicks)** serves as a conversion proxy
- **Reach and Impressions** measure audience penetration
- CPR by Age Group & Geography

CAMPAIGN PORTFOLIO BY GEOGRAPHY AND AUDIENCE

- SHU(Educators and Principals)
- SHU(Students Apart from India and US)
- SHU Students(Australia)
- SHU Students(Canada)
- SHU Students(Ghana)
- SHU Students(India)
- SHU Students(Nepal)
- SHU Students(Nigeria)
- SHU_Students(UAE)
- SHU Students(UK)
- SHU_Students(USA)

CAMPAIGN PERFORMANCE & DISTRIBUTION ANALYSIS

- Campaign 3 (Australia): 19.33%
- Campaign 10 (UK): 15.03%
- Campaign 4 (Canada): 8.25%
- Campaign 11 (USA): 7.32%
- Campaign 7 (Nepal): 2.0%
- Campaign 2 (International): 0.99%
- Campaign 6 (India): 0.97%
- Campaign 8 (Nigeria): 0.88%

COST EFFICIENCY BREAKDOWN OF GLOBAL CAMPAIGNS

Comparing CPR performing campaigns

CPR Comparison Of Best And Worst Campaigns

ROI: CLICKS VS. SPEND EFFICIENCY

Cost-effectiveness of GlobalShala campaigns analyzed

ULC Per ₹1,000 Spend By Campaign Region

DEMOGRAPHIC EFFICIENCY PATTERNS (AGE-BASED)

AVERAGE REACH AND IMPRESSIONS BY CAMPAIGN

- The campaigns with the largest average average reach per segment are Campaign (Students Apart from India and US) and Campaign 6 (India).
- Campaign 11 (USA) and Campaign 3 (Australia) will have very short bars, highlighting their limited reach & impressions in comparison.

OPTIMIZATION BLUEPRINT FOR CAMPAIGN REVAMP

- **Audience targeting:** Focus on 13–24 age group segments
- **Pause Spending:** Halt all campaigns (Canada, USA, UAE, UK, Australia).
- **Reallocate Budget:** Reallocate budget starting with Nigeria
- **Implement A/B testing:** Optimize ad copy effectiveness systematically
- **Scale high performers:** Increase budget and expand targeting

DISCONTINUING CAMPAIGNS

- **Discontinue:** Discontinuing Australia & UK saves ₹1,718 immediately
- **Geographic Issues:** Reallocating to Nigeria is giving 22x more efficient than Australia
- **Engagement Concerns:** Younger audiences (13-17) show highest engagement.
- **Strategic Focus:** Western countries (UK, Australia, Canada) need strategic overhaul

FINAL RECOMMENDATION:

- Discontinue Australia & UK campaigns immediately
- Increase investment in Nigeria, SHU3 and India
- Optimize targeting toward younger demographics
- Implement continuous performance monitoring

Thank you!
